[Verse 1]

Please go outside
I wanna show you where
You'd like to be
See the awe in the distance
Waiting for love to shower on me

[Hook]

I could be the one that you need
Follow me, follow me (yeah)
Follow me, follow me (yeah)
I could breathe, you purify me
Follow me, follow me (yeah)
Watching you follow me

[Chorus]

Ooh can you feel the rain fall
All over you? all over me? yeah
And every single thing gone
There is only you, there is only me yeah
And this compares to our love
I say that it's non-stop
Can you think of it any other way?
I'm just taken by the moment
That we're in, God brought
I wouldn't want it any other way
In the rain...

[Verse 2]

Look into my eyes
You look into my soul
Let yourself go
(Let it rain, let it rain)
I'll hold you tight
No need to stay dry
What we are feeling is in the air

[Hook]

I could be the one that you need
Follow me, follow me (yeah)
Follow me, follow me (yeah)

I could breathe, you purify me
Follow me, follow me (yeah)
Watching you follow me

[Chorus]

Ooh can you feel the rain fall
All over you? all over me? yeah
And every single thing gone
There is only you, there is only me yeah
And this compares to our love
I say that it's non-stop
Can you think of it any other way?
I'm just taken by the moment
That we're in, God brought
I wouldn't want it any other way
In the rain...

[Bridge]

Soaked? it's your call...
Do we go in? or stay out?
I know there's a way
Give us hope for today
Cause tomorrow, they'll be sunshine
And when you wake
It will be left behind, yeah yeah

[Chorus]

Ooh can you feel the rain fall
All over you? all over me? yeah
And every single thing gone
There is only you, there is only me yeah
And this compares to our love
I say that it's non-stop
Can you think of it any other way?
I'm just taken by the moment
That we're in, God brought
I wouldn't want it any other way
In the rain...

In the rain...
