I know what I want, the pulse it feeds,  
The winds through the weeds of grass,  
Here I stand (x 2), knee deep in the past-  
The sky is tarnished with the sensitivity  
Have we failed to measure up ability  
Searching the closet for the left behind,  
Prerequisite yet this is so hard to find,  
I wade through the swamp until there's land,  
So, here I am a species of a remnant called man  
I think we're closing in cause  
Here we are, here we are again

Chorus  
Moving forward into time and space  
Everything remains the same  
Looking back to what we once had  
Nothing seems to change

Verse II  
I took the souls of 20 young men

Then blender and sender into a perfect specimen  
Return to the eye of the storm  
I touch the mic, the magnetic field gets warm  
I upset but not yet ready to detonate  
But not wait for you to set your  
Ass back at that gate  
Never find my friend again until  
The end cause here we go,  
Here we go again  
Check the culprit who got hit  
From the pulpit of Dr. Strauss  
Says Caget is it  
From 20 leagues beneath the sea  
It's D.A.V.I.D. with Hyper I.M.A.G.E.

Chorus  
Moving forward into time and space  
Everything remains the same  
Looking back to what we once had  
Nothing seems to change (x 6)
