Expensive promises i made,
all the chances that i take
never learn to appreciate our time,
lie awake all through the night
memories by candle light,
keep them safe locked inside my mind

(chorus)

i heard you calling to me
you come to me,
i know now i am complete
i am complete,
was lost in the moment got carried away,
heard the sound of you calling my name
now i am complete,

misplaced trust and honesty,
should have known my time to leave
close my eyes and imagine i was blind,
open up and say too much,
thoughts of us remained untouched,
keep them safe locked inside my mind

(chorus)

i heard you calling to me
you come to me,
i know now i am complete
i am complete,
was lost in the moment got carried away,
heard the sound of you calling my name
now i am complete,

now i am complete x3

unsaid words communicate,
things that time will never take
look for me and i'll do the same in time
now tomorrow seems so clear,
whisper softly to your ear
keep me safe locked inside your mind

(chorus)

i heard you calling to me
you come to me,
i know now i am complete
i am complete,
was lost in the moment got carried away,
heard the sound of you calling my name
now i am complete

i heard you calling to me
you come to me,
i know now i am complete
i am complete,
was lost in the moment got carried away,
heard the sound of you calling my name
now i am complete
