Place your hand in mine
And carry us through this
We keep discovering
All these different ways
But if your wondering
What just makes you know
Let your spirit show...

All I see now
When you and I collide
I've got one last try
I don't know how
Can you help me out?
When the universe decides
That's when you and I, collide

Ooh... yeah, oh ooh... hey

Sing that song for me
That one that I believe in
Hear your harmonies
Before they come yeah
What's inside of me?
Making all this noise
Other than you I feel it too... oh

All I see now
When you and I collide
I've got one last try
I don't know how
Can you help me out?
When the universe decides
That's when you and I, collide

(Break)

All I see now
When you and I collide
I've got one last try
I don't know how
Can you help me out?

When the universe decides
That's when you and I, collide

You and I collide
Ooh yeah
You and I collide
