[Verse 1]

Staring at the moon, I see your face
Why can't it lead me home?
Give up so soon, your not in a race
Come feel that you're not alone
I wanna give you a window of opportunity
Discover everything that is hard to believe

[Pre-chorus]

You came so close but I feel
You could do much better than that
Hold on so long to go now
Why you feeling so sad?
You'll find a way, you'll find a way
You got it made, I just gotta say
When you don't like when you cry
Said, it's alright cuz, to me...

[Chorus]

You cry diamonds
It's amazing that every day
I feel the same way, you know this
That's why I'm by your side
When you cry diamonds (hey)
It's all the reason I can't stay away
Yeah I won't stop to gain focus
You see it's cut down to the right size
When you cry diamonds

[Verse 2]

Can you feel my heartbeat?
Reach out and grab a hold
No visualize, don't think twice
I know that you're capable
Just look beyond and you'll find a way
Soon to find the means to stay
And if you can't forget it
Then let's at least pretend it baby

[Pre-chorus]

You came so close but I feel
You could do much better than that

Hold on so long to go now
Why you feeling so sad?
You'll find a way, you'll find a way
You got it made, I just gotta say
When you don't like when you cry
Said, it's alright cuz, to me...

[Chorus]
You cry diamonds
It's amazing that every day
I feel the same way, you know this
That's why I'm by your side
When you cry diamonds (hey)
It's all the reason I can't stay away
Yeah I won't stop to gain focus
You see it's cut down to the right size
When you cry diamonds

[Bridge]
At the end, I am standing here
Near or far, I'll take away your fears
Aimed ready to hit, if that's how you want it to be
(Trust me) it will not escape
And we'll get away, so far away
You know that you cry-

[Chorus]
Diamonds
It's amazing that every day
I feel the same way, you know this
That's why I'm by your side
When you cry diamonds (hey)
It's all the reason I can't stay away
Yeah I won't stop to gain focus
You see it's cut down to the right size
When you cry diamonds

Ooh...

Diamonds... diamonds...
Diamonds... diamonds...
