Get your friends again
I wanna see it nearer
Every situation's clearer now
Bout time say alright
I'm more anxious
Starting to get 'fraid
Of what it takes
But I know...

I really wanna get away
See all the things, but it's taking slow
Get out before it fades away
Can't miss the night life

It's our time, get right (right)
Everything tonight I wanna feel it
You wanna feel it, fulfill it
On sight... get right
If it is alright, I wanna feel it
You wanna feel it, fulfill it, feel it

(Ooh) let's pretend
That we are together
Act just like whatever, whoever is
Bout time (time) say alright (right)
I feeling kinda anxious
Don't feel I'm in the mood enough
To play this game but I know...

I really wanna get away
See all the things, but it's taking slow
Get out before it fades away
Can't miss the night life

It's our time, get right (right)
Everything tonight I wanna feel it
You wanna feel it, fulfill it
On sight... get right
If it is alright, I wanna feel it
You wanna feel it, fulfill it, feel it

Nothing to trade, cause I could breath

(I could breath) in this moment
I'd like to hold this over me (ooh)
Takes the passion to get this right (it right)
I am secure for all of my life
And everything's completely just me
And that's the way I'd like it to be

It's our time, get right (right)
Everything tonight I wanna feel it
You wanna feel it, fulfill it
On sight... get right
If it is alright, I wanna feel it
You wanna feel it, fulfill it, feel it
It's our time, get right (right)
Everything tonight I wanna feel it
You wanna feel it, fulfill it
On sight... get right
If it is alright, I wanna feel it
You wanna feel it, fulfill it, feel it
