I don't even hear your words
And I don't care what you're worth
Slowly this poison, has got a hold of me
And I can't breathe

When you put your arms around me
Stare into my dreams
I see you and me together
Constantly...

I hear you calling me
But it takes too long
It takes forever
To get to you
And my mind would surround you
But it don't make a sound to you
But what I won't do
I won't wait forever
I won't wait forever
I won't wait forever
I won't wait forever
You're keeping me waiting...

I don't ever like your smile
Or the way you float around no
I'm tired of the games you play
You think you really get away

When you put your heart around me
Hey you interrupt my dreams
I can see you and me together
Possibly...

I hear you calling me
But it takes too long
It takes forever
To get to you
And my mind would surround you
But it don't make a sound to you
But what I won't do
I won't wait forever

I won't wait forever
I won't wait forever
I won't wait forever
You're keeping me waiting...

In this cold world
I would put you first
And you can never leave
I even place you in my dreams
But if I'm not so comfortable
I have to let you go
With nothing left to say
I think I'll find some other way
But if my walls won't come crashing down
Break to pieces, lift away
Be ok, I'll be ok
Cuz baby said I wouldn't wait

I won't wait forever
I won't wait forever
I won't wait forever
I won't wait forever
You're keeping me waiting...

Won't wait forever
I won't wait forever...
