"Say That You Love Me"

Visit "[Say That You Love Me](#)" on MotoLyrics.com

All I know now
Is a secret kind of love
That I place no one above; your heart
Yeah, made me cry, love
All these happy tears
That I she'd all through the years
No fears...

When the moment reigns
I could feel no pain
Help me wonder
Come closer to my feats
When it's news to you
Make me bulletproof
Don't mean a thing
Till it don't mean a thing

When you're dancing up on the moon
And you say that you love me
You put nothing above me...
That's when I feel I don't have any room
To say what I can't see
When you say that you love me,
Say that you love me

Help me though now
Easy to walk by
Lost without a try, or a cause
What's on my mind
Pinpoint what is clear, or sincere

When the moment reigns
I could feel no pain
Help me wonder
Come closer to my feats
When it's news to you
Make me bulletproof
Don't mean a thing
Till it don't mean a thing

When you're dancing up on the moon

And you say that you love me
You put nothing above me...
That's when I feel I don't have any room
To say what I can't see
When you say that you love me,
Say that you love me

Crawl into my space yeah
I can't find the days yet
Or know what they mean
Can we make this last forever?
Start it off now, or make it ever?
Pour your love, a storm to weather

When you're dancing up on the moon
And you say that you love me
You put nothing above me...
That's when I feel I don't have any room
To say what I can't see
When you say that you love me,
Say that you love me
