I'm where I didn't want to be
A crowded room hiding from you
Pulling shadows off the floor
Hoping that you find me

You can't even find yourself
And I can't even find the key
To get in and out of this mess
Why you, why don't I?

How can I throw it away?
How can I walk away?

Where do I go from here now?
Foundation rocked temptation
You've given me a reason
Haunting you taunt my time

I think of you, I sigh
I think of this, I cry
I think of nothing
And I'm fine
This is going to be
A long goodbye

How can I throw it away?
How can I walk away?
Rematch starting over
Seeing it up closer
For sure it's not the right thing
But I believe it's something
How can I throw it away?

About timing
Is it mine yet?
I'm still finding
We're not there yet

How can I throw it away?
(Taking down my own strength)
How can I walk away?

(It's been a life time making it the right time)
Rematch starting over
Seeing it up closer
For sure it's not the right thing
But I believe it's something
How can I throw it away?
