So you tell me that you're gonna be a star
And you say you're gonna be a zillionaire
And you say you're gonna send me back a post card
When you're sitting at the top and I'm still down here
And you say...

CHORUS:

Baby all I want is more (All I want is more and it's never
too much)

But I never get too much (I see it every day but I can
never touch)

And I'm getting what I want (Getting what I want's
never been too tough)

But I never get enough (All I want is more 'cause I can't
get enough)

So you tell me how much better it would be
And you think the grass is greener over there
And you can't tell what you want from what you need
And you are traveling but you will never get there
And you say...

CHORUS:

Baby all I want is more (All I want is more and it's never
too much)

But I never get too much (I see it every day but I can
never touch)

And I'm getting what I want (Getting what I want's
never been too tough)

But I never get enough (All I want is more 'cause I can't
get enough)
