Oh---

VERSE ONE:

It was You

Who came down from heaven

It was me You wanted to know

I am Your child, and I can see it in Your eyes

Caught in Your gaze

Caught by surprise

CHORUS:

This is love

This is how it's meant to be

I am loved, and this love has set me free

This is love

This is heaven's mystery

Not that I would love You first

But that You would first love me

VERSE TWO:

Tell me why

You would pursue me

Tell me how I could deserve

All You give

I am amazed

At what You would see in this heart of mine (see in this heart of mine)

You picked up my cross, and laid down Your life

(repeat chorus twice)

Oh---
