VERSE ONE:

I played a game
Just like I was a child again
And I felt the pain
Crashing like a wave
And I sink to the floor
Like a stone from the shore
And I pray that You'll be there
To save me from the storm

CHORUS:

Underwater
And I think I'm going down

VERSE TWO:

I dreamed a dream
Just like I was a child again
It came over me
Crashing like a wave
I'm in over my head
As I struggle for air
And I'm calling for help
And I know that You'll be there

CHORUS:

Underwater
And I think I'm going down
And I know that only You can save me now
In the storm of my life
You're the only hope in sight
Now I'm sinking and there's no one else around, oh no
Underwater, please don't let me drown
(repeat chorus)
In the storm of my life
You're the only hope in sight
Now I'm sinking and there's no one else around, oh no
Underwater, please don't let me drown
Underwater, please don't let me drown
