Don't hold your head too high,
Take it off the ground.
But then come back again...
You gotta look into the sky,
When will you be found?
But then come back again...

Be a magnet in disguise.
Steal those greedy eyes.
All the lows and all the highs,
We all come back again.

Tryin' to hear me,
Everyone knows that you love me.
If we argue,
We're going back to the same place we started.
Tryin' to hear me,
Everyone knows that you love me.
If we argue,
We're going back to the same place we started.
And then come back again...

If you run before you crawl,
You'll miss the time to grow.
But then come back again...
The systems we install
You'll just never know.
But then come back again...

Be a magnet in disguise.
Steal those greedy eyes.
All the lows and all the highs,
Oh, we all come back again.

Tryin' to hear me,
Everyone knows that you love me.
If we argue,
We're going back to the same place we started.
Tryin' to hear me,
Everyone knows that you love me.
If we argue,

We're going back to the same place we started.
And then come back again...

Everytime I cry,
I try to change myself.
Everytime I cry,
I cry...

Be a magnet in diguise.
Steal those greedy eyes.
All the lows and all the highs,
We all come back again.

Tryin' to hear me,
Everyone knows that you love me.
If we argue,
We're going back to the same place we started.
Tryin' to hear me,
Everyone knows that you love me.
If we argue,
We're going back to the same place we started.
And then come back again.
