And I swore
On the first light that I go
I'll tell the light
And I know
Nothing works
Untill it goes
Just breath tonight

I see the light come through my window
I see it carry in my walls
I see it coming through my window
Cuz my window got the light that I know

And I say
Almost like Im set to go
And breath tonight
If you say
That I take all of throne
Just stay today

Ooooh

And I see the light come through my window

(I see the light come through my window)
I see it carry in my walls
(I see it carry in my walls)
I see it coming through my window
(I see it coming through)
Cuz my window got the light that I know

And I see the light come through my window
(I see the light come through my window)
I see it carry in my wall
(I see it carry in my wall)
I see it coming through my window
(I see it coming through)
Cuz my window got the light that I know
Yeah
