Every day, it's the same damn thing.  
You always have the same drama to bring  
My friends say that you're not worth a thing  
But then I say I don't care what you think.

(And now every day I think)  
Where did I go wrong?  
(And every time I think)  
We've been together so long  
(And every time I say)  
Is it worth it to let you go  
(And now I wonder)  
If you and I are going different roads because.

Every day, we stop and go  
It's like you and I are going different roads  
We're growing apart  
And it breaks my heart  
To see you walk away from me  
But I should be the one  
I should be the one  
To let you go, but no  
I'm not gonna live without you  
But just tell me why do we always have to stop and go

My friends say that I'm too good for you, your friends  
say I'm not  
And now you're trying to play mind games with me, but  
I'm still the best  
That you got  
I've been here with you from the start, and you always  
try to put me on the  
Spot  
You're gonna regret the day you've done that, because  
you're heart is gonna  
Rot.

(And now every day I think)  
Where did I go wrong?  
(And every time I think)  
We've been together so long

(And every time I say)  
Is it worth it to let you go  
(And now I wonder)  
If you and I are going different roads because.

Every day, we stop and go  
It's like you and I are going different roads  
We're growing apart  
And it breaks my heart  
To see you walk away from me  
But I should be the one  
I should be the one  
To let you go, but no  
I'm not gonna live without you  
But just tell me why do we always have to stop and go

Everybody thinks that I'm a fool for you  
When everyday I've done everything I could for you  
I've should have let you go, let you go from the start  
Since you've left me in the cold and nearly broke my heart  
So here's to goodbye and here's to my last cry  
Here's to the hell that you've left by my side  
Tear those roads down because they no longer exist  
Go ahead and leave, pack your bags and have a fit

Every day, we stop and go  
It's like you and I are going different roads  
We're growing apart  
And it breaks my heart  
To see you walk away from me  
But I should be the one  
I should be the one  
To let you go, but no  
I'm not gonna live without you  
But just tell me why do we always have to stop and go
