### "New Eyes"

Visit "[New Eyes](#)" on MotoLyrics.com

New eyes on your side and it won't phase me  
I break things, cause pain and say you made me  
I'm packin' up all of my things  
To move out and separate this mess  
Break things, cause pain and say you made me

Whoa

New eyes on your side and it won't phase me  
I break things, cause pain and say that you made me  
Step back from what you think you know  
Truth burns sometimes we move and blind  
Break things, cause pain and say you made me

Whoa

Ooh

New eyes on your side and it won't phase me  
I break things, cause pain and say that you made me  
Say that you made me (I'm packin' up all of my things)  
Say that you made me (I'm packin' up all of my things)
