"Until Then"

Visit "[Until Then](#)" on MotoLyrics.com

I am always rescuing myself
From myself
It's always me that ends up in my way
Along my way

I hold this plane just for fun
To watch me fall, come undone
And maybe we'll find love again
Until then, until then, until then, until then

I am always rescuing myself
From myself
I drown away inside a broken heart
You broke my heart

A lonely game's what I've won
Was destined for and now it's done
And maybe we'll find love again
Until then, until then, until then, until then

Until then (Maybe we'll find love again) 4x
