"Liza Radley"

Visit "[Liza Radley](#)" on MotoLyrics.com

Liza radley - see the girl with long hair
See her creeping cross summer lawns at midnight
And all the people in the town where we live say
Shes not quite right
But she dont fit in with a small town

They just cant understand why shes got to be free
And for their lives only, she cries

Liza radley - see her jump through loneliness
Liza radley - take me when you go

And all the people in the town where we live say
Shes not quite right
But she dont fit in with a small town

They just cant understand why shes got to be free
And for their lives only, she cries

Liza radley - I pledge myself to you alone
Then she kiss my face and says love means nothing at
all
She kiss my face and says life means nothing at all
