For so long I've been thinking what I can do  
Day and night I've been thinking what I can do  
To forget about you, to forget about us  
Do I exist in your so-called life?  
Will this drama ever end?  
I am having my doubts

Forget about me. I'm sure you have.  
Forget about me. I'm sure you have.  
Forget about me. I'm sure you have.  
I'm sure you have. I'm sure you have.

My heart's on a table with three legs  
That's where you want it, right?  
My heart's on a table with three legs  
That's where you want it, right?

My feelings sustained  
My dreams are flying away  
Never again, bittersweet,  
Never again, bittersweet,  
Never again, bittersweet poison
