When you said goodnight
didn't you mean goodbye, goodbye?
It's not the way you loved me, but definitely
how you hurt me, how you hurt me.

Your lies like a dagger through my heart.
Pierced me where it, where it hurts the most.
If you were gone, would I miss you, or would I be
grateful?
I still love you. I still love you.

All I ever wanted was your love.
All I ever wanted was your love.
All I ever wanted was your love.
All I ever wanted was your love.
Was your love.
Your, was your love.
Was your love.
Was your love.
