

Across Five Aprils

"Everywhere She Goes"

Visit "[Everywhere She Goes](#)" on MotoLyrics.com

Last night I saw her out
In the city crowd
Laughing in the breeze
She smiled at me
Just like a movie scene
It was her and me
Waltzing in our heads
All by ourselves
And as she passed me by
I could see it in her eyes

CHORUS

Everywhere she goes, she goes there knowing...
I just wanna be with her
Everywhere she goes, she goes there knowing...
I just wanna be...
I just wanna be with her

Seems like I see her face
Every couple days
Playing hard to get
I can't handle this
Something about the way she moves
The looks she gives, the attitude
It pulls me in

CHORUS

When's she gonna stop these games?
When's she gonna stop?
(Everywhere she goes...)
I just wanna be with her

CHORUS
