And I walk alone through the deep and the snow.  
And I walk alone. I claim this land for my own.

Too many problems to see, then there was me.  
All of the others agree that I just wanna be free.  
Too many problems to see, then there was me.  
All of the others agree that I just wanna be free.

I walk alone through the deep and the snow.

Come in the water with me.  
Come in the water with me.  
Come in the water with me.  
Come in the water with me.  
Come in the water with me.  
Come in the water with me.  
Come in the water with me.  
Come in the water with me.
