Lovely day, such a lovely day  
Here I am staring far away  
Morning brings a sun at smiling  
Still I have to feel this way

Do I need a miracle, no that wouldn't do  
I guess the only way is find someone like you  
You're the only lovely way to brighten up my day  
You make me laugh, you make me sing

Build my world with the love you bring  
You're the only lovely way to brighten up my day  
Your happiness in every way  
Come on back and bring a lovely day....

Lonely nights won't ever be  
Just don't say goodbye to me  
I can feel that certain sadness  
Emptiness when you're not with me

Do I need a miracle, no that wouldn't do  
I guess the only way is find someone like you  
You're the only lovely way to brighten up my day  
You make me laugh, you make me sing

Build my world with the love you bring  
You're the only lovely way to brighten up my day  
Your happiness in every way  
Come on back and bring a lovely day....

You're the only lovely way to brighten up my day  
You make me laugh, you make me sing  
Build my world with the love you bring  
You're the only lovely way to brighten up my day  
Your happiness in every way  
Come on back and bring a lovely day....

Come on back and bring a lovely day....  
Come on back and bring a lovely day....
