You, go around in circles in my mind
Wondering were you are tonight
I have a dream you're in my life
That you're lying here it's all right
You don't see the smile, that's in your eyes
How deep of love and feeling
It's making me believing
Chorus
Maybe I can hold you
Baby I can show you
Like a river on it through your heart
Don't know where to start
To find the words to tell you
That I love you
With my hopes around you
Only when I close my eyes
Do you realise
That is only in my wildest dreams
Ooh open up the door into your life
Only you can let me in tonight
You want believe the joy you bring to me
You're the sun, the moon revolve in my world
Tell me, if it's only make believing
You may be my destiny
Could you feel the same for me
Chorus
Only in my wildest dreams
Chorus
