It's nothing that you say
But It's okay I know,
Yes I know
What you mean and when
I love you isn't spoken
Isn't spoken
Your heart is shouting out
A promise never made
It never left your lips
But I hear it any way
You've got a way without words,
What you do it tells me more
You've got a way of being heard
Sometimes your kiss can say,
All the things that you feel,
Speaking doesn't make it real
You've got a way without words
There is something about the way
How we communicate, with another
You always get it straight
O there's no need to wonder
To wonder
Cause I can hear your voice
Without any waiting
I feel around the noise
So you don't have to say it
You've got a way without words,
What you do it tells me more
You've got a way of being heard
Sometimes your kiss can say,
All the things that you feel,
Speaking doesn't make it real
You've got a way without words
There is no need to talk
I'm always listening
But giving the choise
I will change nothing
Cause I like you best
When you are speachless
Oh you've got a way
Sometimes your kiss can say
All the things that you feel

Soeaking doesn't make it real
You've got a way without words
Without words
