If you ever feel like you need  
Someone to be your antidote to lonely  
I'll be quicker than you'd imagine me  
Let me deal with lonely

Oh lonely, don't love you, baby, but I do  
Lonely, don't want to make you feel good  
Not in the way you know I would  
You don't have to entertain lonely  
It's getting what it wants when you're not with me  
Never let that lonely capture you  
Always know that I'm here for you

If you ever feel like you need  
Someone to be your antidote to lonely  
I'll be quicker than you'd imagine me  
Let me deal with lonely

If you ever feel like you need  
Someone to be your antidote to lonely  
I'll be quicker than you'd imagine me  
Let me deal with lonely

Lonely don't want you happy  
Lonely don't want you next to me  
Lonely doesn't wanna make a compromise  
Lonely's never gonna apologize

For getting you down, for letting you down  
I could never be like lonely now  
I care too much for my baby  
Never forget that you can call on me

If you ever feel like you need  
Someone to be your antidote to lonely  
I'll be quicker than you'd imagine me  
Let me deal with lonely

If you ever feel like you need  
Someone to be your antidote to lonely  
I'll be quicker than you'd imagine me  
Let me deal with lonely

It could be me and you, we can do whatever  
Leave lonely out in the cold  
We can just love, love, love  
It could be so full on, everything we want  
Close the door on lonely  
So we can just love love, love, 'cos

If you ever feel like you need  
Someone to be your antidote to lonely  
I'll be quicker than you'd imagine me  
Let me deal with lonely

If you ever feel like you need  
Someone to be your antidote to lonely  
I'll be quicker than you'd imagine me  
Let me deal with lonely

Let me deal with lonely  
Let me deal with lonely  
Let me deal with lonely  
Let me deal with lonely

If you ever feel like you need  
Someone to be your  
Feel like you, someone to, antidote  
Feel like you, antidote  
Feel like you, someone to  
Feel like you, antidote  
Feel like you, someone to  
Feel like you

If you ever feel like you need  
Someone to be your
