[Kool Keith]

Live, November 6, 1996

at the Great Western Forum in Inglewood, CA

Dr. Octagonecologist and Chewbacca Uncircumcised
perform with with Curt Kobane and Roger from Zapp

[Sir Menelik]

The plane managed to land, the skeleton at the
controls

A place called the Twilight Zone

Are extraterrestrials able to accomplish this?

I will explain but you'd become more puzzled at the
possibilities

Earth ending trilogies, wacky stuff

Like gas passing dinosaurs

While I stroll in circles blindfolded

Gave a lady some wrinkle cream out of rat poop

You might just laugh so hard your skull cracks

Brain spills thick blood shooting out like a champagne
cork

Females so horny and mean, sucking scales off of live
rattlesnakes

My boy gave his girl money for groceries, she got a
new hairdo

Women like this could even make the devil commit
suicide

hung from a tree on Johannesburg with no parachute

Big-Bigfoot captured by UFO's

Haloes were found, at the landing sites, vanishing

Vanishing victims, kept alive on metal examining tables

Ex-Experts baffled they could survive the caustic
exposure

to laser scalpels, green berets

Flowing cold heads in mechanical wombs

Radioactive constant temperature circular appendages

Cripples start shaking sending distress signals

We're not alone in the Twilight Zone

Back in spiral, I roast humans like a gyro
New York, Atlanta, Africa to Cairo
Diplomat King Presidential offspring
Two miles from Westinghouse, with lights down South
Government chemical voodoo man miracle
Super disease your brain is more hysterical
My urine see paralyze your ability with space codes
electrodes you're ready for a pap smear
Wax in your inner ear, doo-doo in your outer ear
Two cows a zebra will jump through your atmosphere
Giraffe-Funk will raise beam in through your trunk
Steam of Legion, to burn up in your anal region
Power contracting with bombs in his rectum factor
Utilized phonic like water in your Panasonic
Trip or slip or fall
Right into the earth pit, gamma ray toilet
Microbes on your earth shit
Dr. Ludicrous, I turn into a octopus
Grab eight species, isolate like an incubus
Convert with probes, green shit is on your earlobes
Attack what stomach with juice they call gastric
Alien bugs with sickle cell, get they ass kicked
Dermatologist examine more black cysts
Radiation butter pouring down your sinus, it's Dr.
Octagon

Utilize to abuse minds
Slice head halves, let's probe the subconscious lobe
Mathematical parabola, ACT test and just ex-plorating
the creative arctic regions, or isolating cockpit
A regular pitstop monitoring with enough fuel to fly a
small dirigible
To a place an oasis in a nebula, Earth
Universal charting unseen atmosphere
Requesting assistance, I speed through waves like a
Concorde SST
Then open aperture
The shape of Octagon selects forward morphing it's
the vertical Frankenstein

Prototype of like Kervorkian
Mind pedestrian controls
Spend elevation gobble the ignorant supersonic cruise
Hidin to think, focus psychosis with Von Blowford
Black lotus releases when life is flailing external
terminal update, thermal conducted power source
supplied
Man on the moon pumps amps, or souped up cable
boxes
getting up impossible
The speaker needs another dose, concoct
Concoct the scenario view, in a position of a coroner
describing current events bent on human
dismemberment
To a point of no resemblance
We're not alone in the Twilight Zone

Like Enoch, I wear my cape, you can't destroy
my impeccable caliber that makes your vision blur
I drop particle X when having Rhythm sex
Voodoo arrangers with the kids Power Rangers
Make me see other men, gorillas masterbating with
human strangers
Legally through court, you're stung by a genital wart
Chlamydia, through the city-a
Los Angeles Texas has a serpent that's urgent
for the mass appeal biomedical test your rectum
squeezing in banana peels
Outwards backwards towards Boston
It's costing androids leaving humans with hemerrhoids
Thinking more of what they can't explore, like
the cartoon Donald Duck is giving fellatio on the floor
with Reed Richards, looking at The Thing's naked
pictures
Taking Ex-Lax to relax with the needle and thread
sewing up all the other buttcracks
In the industry there's no one who can mess with
Dr. Octagon, now serving coleslaw and pink pickles

"They waved among the trees at breakneck speed"

[Kool Keith] Keep it simple

scratched "They waved among the trees at
breakneck speed... their bikes"

[Kool Keith] Keep it simple
"Detached his bike, and leaped to safety
Just before they collided with a tree..."
