"Get Up, Get Out"

Visit "[Get Up, Get Out](#)" on [MotoLyrics.com](#)

You tried so hard to get
Right back inside my head
And I'd say it was a real success
Cause now you're lying here in my bed
I checked your messages
Believe me, every woman does this
Now I'm pickin' up my heart of off the floor
I ain't gonna do this no more

How could you hurt me like this
You said you loved me
I'm so much better than this
So you got to go

Get up, get out
Take your sh**, get outta my house
A million apologies later
You f***in' do it again
Get up, get out
Boy I tell you to turn around
A million apologies later
You f***in' do it again

Ah, ah, ah-ah
Ah, ah, ah-ah
Ah, ah, ah-ah
You f**in' do it again

My god, what a fool I've been
How could I not have seen
That you are a lyin' cheatin' lovetaker
Stupid motherf***in' heartbreaker
First time was bad enough
But I believed you when you said it was done
Now I'm pickin' up my heart of off the floor
I ain't gonna do this no more

How could you hurt me like this
You said you loved me
I'm so much better than this
So you got to go

Get up, get out

Take your sh**, get outta my house
A million apologies later
You f***in' do it again
Get up, get out
Boy I tell you to turn around
A million apologies later
You f***in' do it again

Ah, ah, ah-ah
Ah, ah, ah-ah
Ah, ah, ah-ah
You f***in' do it again

And so the curtain closes on this fine done mess
I can't believe I believed I gave you a chance
I will not let this become the story of my life
I still have hopes and dreams without you by my side

By my side
Get up

Get up, get out
Take your sh**, get outta my house
A million apologies later
You f***in' do it again
Get up, get out
Boy I tell you to turn around
A million apologies later
You f***in' do it again

Get up, get out
Take your sh**, get outta my house
A million apologies later
You f***in' do it again
Get up, get out
Boy I tell you to turn around
A million apologies later
You f***in' do it again

Ah, ah, ah-ah
Ah, ah, ah-ah
Ah, ah, ah-ah
You f***in' do it again

Yeah
Oh, get up, get up
You f***in' did it again
