What a life  
A trick of light  
Then everything returns to the sea  
You can have whatever you want  
But are you disciplined enough to be free

Turning love into a chore  
Promises come cheap dear reader  
Another page, another door  
Follow, follow me

I know what I'm here for  
Hanging on through late december  
I know what I'm here for  
Follow, follow me

Moving on  
Don't belong  
My life turned into a mall  
Every line is in the song  
Follow me out of the fall

What an actor, what a show  
Going through some holy motions  
The bands are sharp but the singers slow  
Everything must go

I know what I'm here for

Souvenirs, polygraph tests  
Photographs fresh from the wreck  
What a poster saint he'll make  
In one take, one take

I know what I'm here for  
Follow, follow me
