"One Of The Three"

You were one
One of the three
One in three must find some peace
You were one
One of the three
I need proof before belief
Oh well, you just knew they'd come for you
So it was suicide, suicide
Oh well, you got just what you wanted
I hope your satisfied
One of the three (X4)
You were one
One of the three
One in three must find some peace
Oh well I guess your not to blame for what they've done
in your name
In your name
Oh well, it's a shame you got so famous just for a
sacrafice
One fo the three (X8)
You were one
One of the three
One in three must find some peace
Send forth your lamb to the slaughter
Send forthyour lamb to the slaughter
You send forthyour lamb to the slaughter
You send forthyour lamb to the slaughter
