What's a gene between good friends  
Said the monkey to the king  
If you think yourself superior  
You'll never learn a thing  
Don't believe you're here to stay  
Life gets you in the end  
It's time to find out who you are  
You lie and I'll pretend

What a life the lady cried  
I've seen so many things  
A range of human beings  
From criminals to kings  
All my life I've really tried  
To treat them all the same  
They travel the same journey  
From the cradle through to grave

Goalless draw  
Goalless draw  
Goalie's got the ball  
Goalless draw  
Goalless draw  
Goalie's got the ball

Goalless draw  
Goalless draw  
Goalie's got the ball  
Goalless draw  
Goalless draw  
Goalie's got the ball

Get the ball  
Get the ball  
Get the ball

Let me pass my memories on  
My life is not my own  
This is a shared experience  
I'll send you my condolences  
Engraved upon your stone

The ball

Get the ball

Get the ball
