LET LOVE COME BETWEEN US

James & Bobby Purify

Baby I found a way to stop all this fussin', yeah  
It's just not right darling  
The way that we fight  
Girl, if you would listen to what we have to say  
We could stop all this fussin'  
And we could do it this way  
We could let love come between us  
And let love bring us together  
And let love be born today  
And let love, let love live forever

I don't believe that you realize  
How much I need you darling  
And the way my heart cries  
It's so hard for us to get alone  
And if you'd only listen to the words of our song  
And let love come between us  
And let love bring us together  
And let love be born today  
And let love, let love live forever
