-----  
This war's a mother fucker  
How many sons will we kill today  
On poor little brother  
Tell me what the newsline from the ground  
Your love is a killer  
Killing all this love in me  
We are so full of terror  
Viscious kiss, your love is longing deep  
Love love love wont starve  
You don't  
Love love love  
Where the anger is hot  
Where opinion is deep  
Understanding is shot  
Is dead, is dead, is dead  
Where the linen is cheap

Where the weapons are not  
Where all the mothers will be  
Is dead, is dead, is dead  
Will strike you down  
Love love love  
Will strike you down  
Love love love  
We're prone to a torture  
I can't take it anymore  
On poor little mother  
Tell me what the newsline from the ground  
Love love love  
Love will strike you down  
Love love will strike us down
