Took a hit with the left
Round four, eight left
He follows up before the break
Bell rings, it's too late

Got a cut on a lid
Left eye, a nick
Use an iron to stem the blood
Ice will do the rest

You went down, a slip
Round six, six left
Get up, get up, get up

I'm not so strong
Not so strong as I look

I'm not so strong
Not so strong as I look

I'm not so wrong
Not so wrong as I look

I'm not so strong
Not so strong as I look

If you can open your arms
To a blow as a kiss
Meet them as one and the same
There's a sense of relief
When you know that you're beat
All your defence melts away

I'm not so strong
Not so strong as I look
I'm not so strong
Not so strong as I look

When you're hit by a glove
You might never get up from
All you can do is pray

That the contact is sweet
Oblivion deep
Broken's a place you could stay

Now I'm lost in a fight
Where I know I'll get ploughed
Finessing my jaw to his right
It's not the defeat
That shows up the weak
It's how you respond
When you're down

I am vulnerable
I am insecure
And behind that lies one more illusion
I'm invincible
Indestructible
And behind that lies one more illusion

I'm not so strong
I'm not so strong as I look

You went down, with a right
Round ten, two left
Holding on, give him your weight
Referee cries break

You got hit, went down
Taste fear, got up
Stay inside to the sound of the bell
Only two rounds left

Right hook, lost heart
Went down, stayed down
Get up, get up, get up
Get up, get up, get up
Get up, get up, get up
Get up, get up, get up
Get up, get up, get up
