You're a weapon of devotion
Keep the faithful until you are teamed
Yo're a lover of attention
Found a way to pawn your soul
This position may be fetching
But the world moves on and leaves you far behind

I hear you
I hear you
Wispering such gorgeous stories
I see you
I see you
Trying to break free
You liar
You liar
You can live the dreams your spinning
You liar
Love to be decieved

You're falling
You're falling
Falling from your God like distance
You're fashion, just fashion
Fashion doesn't keep
You're sour
So sour
All this hope and trust is misplaced
You're sour
And now you are alone

Walking on fire
Feel the way the world is inclining
Walking on fire
Pay to decieve
Walking on fire
Now the world will keep it's distance
Walking on fire
you rather than me
Walking on fire

My son says

Dear father, what did you do when the world turned
over
Keep spinning
Keep spinning, send us off to sleep
All your words are just dust and moonshine
You liar
Love to be deceived
Walking on fire
Found a house away from humans
Walking on fire
Pay to deceive
Walking on fire
Now the world will keep its distance
Walking on fire
You rather than me
