*talk - This one goes out to all the fellas out there.
If you got your eyes on the prize, you'll get your girl,
man * (yeah!)

I wanna be your soldier
I wanna be your man
I wanna be there at your siiide
And you can be my only one
The only one for me
For all time..

I wanna touch your skin
Just gaze into those eyes
The way that he does
Each and every time
I wanna stroke your hair
And lay you down at night
And watch you as you sleep
Breathing air in my life

I, and I just can't take it anymore
Watchin him treat cha, treat cha,
Treat cha so bad
Oh why, must you let him do ya like he does
Can't chu see I love ya, love ya, love ya
Let me break it down for you tonight

I wanna be your soldier
I wanna be your man
I wanna be there at your siiide
And you can be my only one
The only one for me
For all time..

And I wanna hold you near
I just gotta taste your lips
Whenever you are close to me
I'm losing my grip
I'm out of my mind
Each and every time
I watch ya give your love away

I, and I just can't take it anymore
Watchin him treat cha, treat cha,
Treat cha so bad
Oh why, must you let him do ya like he does
Can't chu see I love ya, love ya, love ya
Let me break it down for you tonight

I wanna be your soldier
I wanna be your man
I wanna be there at your siiide
And you can be my only one
The only one for me
For all time..

Girl, take some time and listen
*talk - I'm a be real *
You're the only one I'm missing
Girl, take some time and look at me
And I know you will find that you always did
Know, know, you know I love ya, love ya
And girl you know, know
You know I care for ya, care for ya
Girl, you know, know
You know you'll never be alone
Not on my watch, baby
You know you always got me

I wanna be your soldier
I wanna be your man
I wanna be there at your siiide
And you can be my only one
The only one for me
For all time..

I wanna be your soldier
I wanna be your man
I wanna be there at your siiide
And you can be my only one
The only one for me
For all time..
