When I was in the city streets
I saw a sobbing girl,
She told me that she has
Some Kind of Trouble. Oh.....

In the time of her life when she got
Some problems, after when
her boyfriend gets some kind of trouble to her.

Don't get yourself into some kind of trouble my dear

I want her to stay strong and don't make any more
troubles in the world. From my past she looks familiar
when she gets a blame in Some Kind of Trouble. Oh...
(Chorus repeat x2)

When I saw a girl again
she told me that she doesn't have any
more of Some Kind of Trouble.
