This shape is brilliant...

This shape was brilliant  
This shape was pure.  
I saw three angles,  
Of that I'm sure.  
And I saw three pointy corners,  
And then I saw three straight sides.  
The top was very narrow,  
And the base was oh so wide

\*Wait that sounds like\*  
A TRIANGLE!  
My triangle  
Oh triangle it's true.  
I saw your your shape,  
In crowded place.  
Now I don't know what to do,  
Cause your God [] so blue

I searched low and high  
Over earth and sky  
But I can't find you triangle  
Tell me why!  
And I miss your base  
And I miss your height  
And my dreams are triangular  
Every night

My triangle  
My triangle  
\*So beautiful it's true\*  
\*It must be those angles\*  
\*That put a smile on your face\*  
\*Not to mention the hypotenuse\*

But i need to know the truth  
Oh triangle where are you?
