When I was the age of three  
My dear mother had a  
Little talk with me

She said a woman  
Can be a good little thing  
But, son, she mean a  
Whole world to men

If I hadn't loved  
Your daddy this way  
He wouldn't be the  
Big man he is today

(CHORUS)  
Don't you know  
A man needs a woman  
A man got to have a woman  
To carry on (to carry on)  
To carry on

Just like the fish needs the ocean  
Just like rough hand need a little lotion  
Like the windows needs pane  
Like the highway needs two lane

(CHORUS)

Just like a vampire needs blood  
Like a dead dog need them bugs  
Just like the darkness needs the light  
Just like the fisherman, he needs  
He needs a little bite now, oh, yeah

(CHORUS)

Just like a boxer need gloves  
Just like me, I need a little love  
Like the soldier needs a gun...
