Love me
Love me from your heart
Let us never part

Bring me all the dreams
You thought would never be
We'll make them all reality
Just you and me

You take my heart away, away

Touch me
Take me in your arms
Shelter me from harm

Let me love you
For a million years or more
I never felt this way before
Before your kiss

You take my heart away, away

You're my dream come true
Baby, I love you
I confess, I need you
I will never leave you alone

Oh, I love you too
My whole world is you
I confess, I need you
I will never leave you alone

You take my heart away
(You take my heart away) away
You take my heart away
(You take my heart away) away

You take my heart away, away
Love me, do do do
Touch me, do do do
Take me, do do do
I never felt this way before

You take my heart away

You're my dream come true

Baby, I love you

Oh, I love you too

(I love you, baby)

My whole world is you

(I love you, love you)

You're my dream come true

(Oh, baby) baby

(Oh, baby) I love you

Oh, I love you too...
