Another kiss goodbye
I can't wait to see you cry
It's something in your heart,
Telling you that this could be over
You know it's not the truth,
Cause I am this song for you
Maybe we're just too young
To give it up, to give it up now

Feels like your world is crashing
But we are everlasting
I cross my heart for you
Oh I'll give you the love, the dream has begun
Come with me in the name of love
We've made it so far
But not far enough
Come with me in the name of love

Another sleepless night
Confusion burns inside
What am I doing here?
All alone, I feel so empty
I hope you hear my plead
Cause I need you here with me
To Wut my heart at ease
Cause I'm giving in, I'm giving in now

It feels like your world is crashing
But we are everlasting
I cross my heart for you
I'll give you the love, the dream has begun
Come with me in the name of love
We've made it so far
But not far enough
Come with me in the name of love

All my life I've waited for this
I'm afraid I may destroy this
Take my heart and break it for me
I will not let go

Another kiss goodbye, I hate to see you cry,
There's something in your heart,
Telling you that this could be over

I'll give you the love, the dream has begun
Come with me in the name of love
We've made it so far
But not far enough
Come with me, in the name, in the name, in the name
of love
