"Warmest Winter"

Visit "[Warmest Winter](#)" on MotoLyrics.com

I heard that snowflakes are different
Every single time
But they always find each other
Somewhere on the ground
Then there's this heart of mine
has summer, if you can find the time
Then baby, maybe we could keep
the temperature from falling down

It's gonna be the warmest winter ever
Cause everytime you come here
Down from Heaven
It gets hotter than the sun here
Everytime you smile
Tell the spring we're gonna be a while
It's gonna be the warmest winter ever

Is it night now?
Cause I keep losing track of time
Let's go outside
Find some place somewhere on the ground
Yeah, let's cool down the heart of yours
Hey summer, look the leaves are brown
Cause it's already Fall again
They just gon' have to wait in line

(It's gonna be the warmest winter ever
Cause everytime you come here
Down from Heaven
It gets hotter than the sun here
Everytime you smile
Tell the spring we're gonna be a while
It's gonna be the warmest winter ever) x2

Thanks to Andrei
