I came in it  
Just doing it  
Just doing it  
I'll deal with that in a minute  
Just doing it  
Not to fuck around  
Watch your language  
What are you talking about?  
All I said is I am here to win it  
Just to win it  
That stupid that you're living  
How you living  
I'm gonna win it  
While you fuck around  
Watch your language  
What are you talking about?  
(repeats all)

What the fuck are you talking about? (repeats)

I came in just to get it  
Let me get it  
I can't hear you with all this music  
Are you hear?  
You got money  
What are you talking about?  
Watch your language  
All I said is I am here to win it  
Just to win it  
That stupid that you're living  
How you living  
I'm gonna win it  
While you fuck around  
Watch your language  
What are you talking about?

Thanks to feel
