My heart is tainted by what I did see
It's cause a undesire upon desire for me
In my mind thoughts are no longer mine
How can I get control of this
I'm in a place where I don't feel like
I'm your anymore but I need your help
Cause I'm dyin

Sometimes I felt like Job, wanting to curse my life
How could you give me breath, when I can't even get
this right
My mistakes hurt you but you still give me life
Oh Lord
When I'm with you I'm strong
And your love covers my weaknesses

Even in dead of night I can be confident
So please restore joy, Please save me again
Cause I'm dyin

Fear of judgement has kept this bottled
It has cause this sense of bitterness
This pain has got to end
You can have the house, the cars, the cars, the clothes
with emptiness
Inside
But you would give it all away if the Lord would hear
your cry

Help me(5x)
Help me, Help me, Help(4x)
Help me, Help me, Help me, Help(4x)
