Vs

As we enter to worship you
You're the King of Kings, we honor you
No one greater than the God we serve
You are high above all
Consume us with your presence now
See your face is what my heart desires
Surround us with your love and grace
Let your train fill this Holy place

Chorus

We long for your glory
Please send down your glory
How we need your glory
Let it be revealed

Vamp

We need fresh oil
We need it to drench us from above
Nothing else matters
Please let your glory cover us
Oh
