"Lifeline"

Visit "[Lifeline](#)" on MotoLyrics.com

You can be my lifeline if you want to
You can be the one to help me come through
And if I find out that your love is true
I'll make it knowing I can believe in you

More than just a momentary pleasure
You gave my life something I can measure
Now that I've found out what your love can do
I'll spend my whole lifetime makin' love to you
Believin' in you

And now at last I've found the peace of mind
That I've been looking for
I turned around and there you stood with love
I never knew before
Now I'm dyin' to live 'stead of livin' to die
First you learn how to give then you give it a try

You can be my lifeline if you hear me
I could spend a lifetime with you near me
And now I've found out what your love can do
I'll spend my whole lifetime makin' love to you
Believin' in you
