Burn bright firelight  
Make my day and light the night  
Baby's comin' home on a red eye flight  
And I been waitin' all week just to hold her tight

I'm gonna love you baby  
And don't you know we'll disconnect the phone  
I'm gonna love you mama yeh, yeh  
I'm gonna love you till the cows come home

You know it only seems like yesterday  
Was sittin' down at a record review  
When in walked the hottest thing that you'd ever see  
"Say daddy how do you do"  
I told her I'd be glad to show her  
And we left the scene  
Heavy... funky... woman... come to me

You know I've met a lot of women in my lifetime  
Don'tcha know they really turned me on  
And though they gave me all that I needed  
Didn't last too long

I been up town downtown  
Even laid my money down  
You know I really paid my dues  
But since I met that woman  
Now I never sing the blues  
Heavy... funky... woman... come to me
