Some people really outta control
What they're looking for they don't know
Tryin to fill a hole in their soul
Never knowin' there's one more place to go
Love will light the way

Some people almost ready to die
Never seemin' to wonder why
Never gave it a second try
Only lookin for one more way to fly
Tell me why
When love could light the way
Love could light the way

Some people 'fraid of bein' afraid
Always lookin' to hide away
Neve seein' the light of day
Only needin' some love to light the way
