If you hear teardrops
Falling like rain on the rooftops
You don't know what you're listening to
This is me missing you

You see lonely
Clear skies turning stormy
Lightning strikes and all you see is blue
This is me missing you

And while you're gone
This is the only way
To let you know
Your love is always safe

If you feel heartbreak
Distant thunder like an earthquake
If you wonder why the earth moves
This is me missing you

And while you're gone
This is the only way
To let you know
Your love is always safe

If you touched empty
Reach in the darkness and don't find me
Then you'll know just what I'm going through
This is me missing you

This is me missing you
This is me missing you
This is me missing you
