She can do anything
What does she see in me
I wouldn't change a thing
I no longer feel so empty

So I'm listening
No words that I can hear
But I'm seeing
For the first time things are clear

But I'd still like to know
What do I do for you
Wanna be a part of me

Take all you see
Anything of me

I've been in love
And I held on to it's bliss

Never realized
That this kind of love exists

(Lead Guitar)

So I'm listening
Your words are what I hear
You have shown me
It's so simple when you're near

I've been in love
And I hold on to it's bliss
Now I realize
That this kind of love exists

I'm listening
For the first, for the first time
